

Questions to ask your pharmacist

1. What is my prescribed medication dosage?
2. Are there any possible problems with drug interactions?
3. I'm taking this supplement/vitamin/herb. Will my new medication cause a negative reaction?
4. Are there any side effects of this medication? What are they? What do I do if I have a reaction?
5. Is there a generic version available?
6. Do you have a deep-discount generics list? Is my drug on it? In any dosage?
7. Can I save money by purchasing the medication directly from you (a cash plan)?
8. Are you aware of any assistance programs I can contact for financial help?
9. Are there any natural alternatives to this medication?

10. What over-the-counter medication can I use for fighting my cold? Seasonal allergies?
11. Would you give me a recommendation for a product to help with my dry skin? Itchy eyes? Cut that won't heal?
12. Ask about anything you need help with.
13. Do you give flu shots here? Immunizations? If so, are you able to bill my insurance company?
14. When am I able to come back in for a refill?
